OBJECTIVE

A passionate learner and excellence in leadership with growing interest in software development currently focuses on learning Java with a foundation knowledge in C and MySQL. Eager to take on challenges and problem solving and preparing to work on real world problems.

PROJECTS

Transformer parameter monitoring system (micro project)

- A system of components that reads the real time voltage, current and temperature values transformer.
- Technology used C for programming in Arduino UNO and SQL to store data's safe and secure.

TECHNICAL SKILLS

Programming languages: Java, C

Database: MySQL

Development Tools: Eclipse

Certification: SQL (Skill Rack)

EDUCATION

B-Tech Electrical and Electronics Engineering (Currently pursuing),

2023-27

Manakula Vinayagar Institute of Technology

CGPA: 8.2(till 3rd Sem)

12th (HSC), Petit Seminaire Higher Secondary School

2022-23

69.9%

ACHIEVEMENTS

- Participated in the Regional Pre-finals of ICT Academy **Youth Talk**.
- Completed 600+ program in **Skill Rack** platform.
- Completed 100+ program in **Code Chief** platform.
- Contributing service as **NSS volunteer** and awareness program across Puducherry.
- Excellence in **Leadership** (class representative) for the past 3-years.
- **Organized** Poster presentation even at MITILENCE in MVIT.
